As Officer Sanchez searched inmate's person, inmate was instructed to place one foot on each black tape, then to place his hands on the wall as the handcuffs were removed. Inmate continued yelling loudly and began turning back towards Officer Sanchez. Inmate was instructed multiple times to return his hands to the wall and his feet to the black tapes on the floor. As jailer stepped forward to perform a secondary search, inmate quickly leaned forward and purposely hit his forehead on the wall. Inmate then dropped to the floor, on his knees, and ignored commands from both Officer Sanchez and jailer to stand back up. As both jailer and Officer Sanchez attempted to pull inmate back up into a standing position, Inmate resisted and began yelling/crying. Officer Turpin (assigned to work master control,) ran out of the booking office to assist jailer and Officer Sanchez in handcuffing and securing the inmate. At this time, PSO Wingerson brought up the restraint chair to the booking area. Inmate was then placed in the restraint chair to prevent further self-harm or incident. Upon arrival, PSO's Marroquin and Ho were in the parking lot about to come on shift and noticed Officer Slight struggling with the inmate. PSO Marroquin came inside to get the restraint chair and notified myself and PSO Herrera that there was a belligerent inmate in the parking lot. PSO Herrera, Officer Romero who was in the DWI room at the time, and myself ran to assist Officer Slight and PSO Ho who had hands on the inmate. PSO Herrera and Offcier Nistlebeck escorted the inmate to the restraint chair which was placed outside the juvenile door. The inmate was bleeding profusely from his nasal area and was making lucrative comments towards the jail staff and assisting officers. A spit mask was placed on the inmate to avoid blood exposure to the staff, due to him attemping to talk and splattering blood from his mouth. [08/27/2019 16:21, KAWALKER, PA, PPD] The inmate was placed in the restraint chair and taken to the booking area to be evaluated by Acadian. Because of this, a restraint chair report was not initially written because he was not in our system and unbeknownst to us at the time we believed one could not be created due to him not being in the jails custody. One can be created as long as the inmate has been in our jail before. I searched the system and used his previous booking information to create this.
